TECH SKILLS

Java, Spring Boot, JUnit
C#, .NetCore, xUnit,
JavaScript, React.js, Jest,
RabbitMQ, SQL, AWS, GIT

PERSONAL PROJECTS

Gina Tells

Ongoing

In development with my peers the project aims to help users to **find** the best **movies** or things to watch based on what their tastes and feelings are right now.
Created with **C# .NetCore, React, ADO, AWS, using the IMDB API to query movies.**

My website

Developed my own portfolio to present my work, share my knowledge, personal interests and to **inspire** other **women in tech**.
Created with **React.js, Jest, GitHub Pages**

WORK EXPERIENCE

ADP, Brazil Labs - Senior Software Engineer

Aug 2022 - Feb 2023

- Working in Wisely® ecosystem offering latest innovations in the **payments business**
- **Automated 20%** of the workflow for Direct Deposit System (DDS) loads through **microservices**
- **Improved** efficiency by automating 9% of manual DDS source matching
- Conducted **technical interviews** to evaluate candidates' technical skills
- Assisted in the **onboarding** and **training** of new team members, providing support and facilitating their integration
- **Collaborated** with stakeholders to align requirements, make technical decisions, and **deliver quality solutions**
- Technologies used: **Java Spring Boot, SQS, AWS, Jenkins**

DELL, Eldorado do Sul - Brazil — Software Engineer

Apr 2020 - Aug 2022

- Working at Dell Financial Services in a diverse team to deliver innovative **payment solutions** for North America.
- Facilitating customer financing of products and services.
- Designing and developing new **RESTful APIs** and **microservices**
- Following the **XP practices** as pair programming and Test-driven development (**TDD**)
- Technologies used: **C#, .NetCore, Entity Framework, xUnit, RabbitMQ**

COMMUNITY INVOLVEMENT

Creator of a Study Group for Tech Interviews in IT — with the Brazilians in Tech Platform

Jan 2021 - Nov 2021

- Managed a group to empower every member to practice for interviews, doing theory review and **coding typical challenges**, alongside **mock interviews** for behavioral questions. In addition, we provided individual **feedback** after each mock interview.
- All sessions happened using the Discord platform and the code challenges with LeetCode
- Reached more than **40 people** scattered across the country.
