WORK EXPERIENCE

Albertsons Companies, Inc. • Vancouver • 07/2024 - Present

Working on large-scale systems powering grocery **payments** and retail **eCommerce**.

Site Reliability Engineer

- Designed and delivered **features** for retail payment workflows.
- Contributed to **CI/CD** pipelines, ensuring reliable builds, automated testing, and safe deployments.
- Built end-to-end observability across **50+** production microservices using **Prometheus + OpenTelemetry and Grafana**.
- Developed real-time alerting pipelines and **on-call workflows**, reducing **incident response time by ~30%**.
- Collaborated with platform teams to define SLIs, SLOs, and error budgets, **cutting alert noise by 80%**.
- Coordinated **troubleshooting** and incident response and executed **disaster recovery exercises**.
- Conducted **technical interviews** for 7+ candidates, evaluating their problem-solving abilities and cultural fit.
- Technologies used: **Java Spring Boot, Python, AKS, Helmcharts, Azure, Kafka, Git, SFTP, Prometheus, Grafana**

ADP, Brazil Labs • 08/2022 - 02/2023

Led a six-developer team delivering scalable solutions for the Wisely® **payments** ecosystem (ACH, direct deposits, payroll loads).

Senior Software Engineer

- **Automated 20%** of the workflow for Direct Deposit System (DDS) loads using **event-driven microservices**.
- Developed **Python automation** to reduce manual DDS source matching by **9%** improving processing efficiency and accuracy.
- Collaborated with **stakeholders** to align **requirements**, make **technical decisions**, and **deliver quality solutions**.
- Conducted **technical interviews** for 10+ candidates, evaluating their problem-solving abilities and cultural fit.
- Assisted in the **onboarding** and **training** of new team members, providing support and facilitating their integration.
- Technologies used: **Java Spring Boot, Python, AWS, MySQL, Kafka, JUnit, SQS, Git**

Dell • Brazil • 04/2020 - 07/2022

Worked at Dell Financial Services in a diverse team to deliver innovative **payment solutions** for North America.

Software Engineer

- Designed and developed **RESTful APIs**, incorporating RabbitMQ messaging to ensure efficient communication.
- Improved product quality with **pair programming** and **TDD**, resulting in a **15% increase** in test coverage.
- Worked on **SFTP** ingestion and settlement workflows, ensuring correct data exchange with partner financial institutions.
- Technologies used: **C# .NetCore, Entity Framework, xUnit, SFTP, RabbitMQ, PCF, Git**

EDUCATION

[AWS Certified Solutions Architect – Associate](#)

Amazon Web Services • Issued March, 2026

Postgraduate In Software Engineering

Estacio • Brazil • 03/2023 - 12/2023

Bachelor Of Computer Science

PUCRS • Brazil • 03/2015 - 12/2019

VOLUNTEERING & LEADERSHIP

Creator of a Study Group for Tech Interviews in IT

Partnered with the Brazilians in Tech platform and supported **40+ participants** nationwide • 01/2021 - 12/2021

- **Conducted theoretical reviews** and **coding challenges** to simulate real-world scenarios.
 - **Led mock interviews** for behavioral and technical questions. **Provided** personalized **feedback**.
-
